APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place of use and manner of use of the waters of an underground source as heretofore granted under Permit 25315, Certificate 8172 is issued subject to the terms and conditions imposed in said Permit 25315, Certificate 8172 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on February 15th of each year.

The total acres irrigated on the center portion of the ranch by Permits 70834 through 70842, shall be limited to 1,462.47 acres from surface sources, plus 341.9 acres from non-supplemental underground sources, for a total of 1,804.37 acres irrigated from all sources within the common described place of use.

The total combined duty of underground water on the center portion of the ranch under Permits 70836 through 70842 shall be limited to 1,709.50 acre-feet annually (AFA) for non-supplemental underground water, plus 3,551.30 AFA for supplemental underground water, for a maximum total combined duty of underground water of 5,260.80 AFA.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.11 cubic feet per second, but not to exceed 2251 acre-feet annually, and not to exceed a annual duty of 5.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before:

January 12, 2007

Proof of completion of work shall be filed before:

February 12, 2007

Water must be placed to beneficial use on or before:

January 12, 2011

Proof of the application of water to beneficial use shall be filed on or before:

February 12, 2011

Map in support of proof of beneficial use shall be filed on or before:

February 12, 2011
